✉ nikhleshbehera@gmail.com [in LinkedIn](#) 📞 +91 8830127631 📍 Bhubaneswar, India

PROFESSIONAL SUMMARY

Results-driven Software Engineer with a strong academic foundation and professional experience working with global enterprises including **Tata Consultancy Services** and **A.P. Moller - Maersk**. Currently contributing to **Research & Development** initiatives for **Johnson & Johnson**, consistently delivering high-quality solutions and recognized with an **“A” Band performance rating** at **TCS - Johnson & Johnson** engagement for excellence and impact. Skilled in developing and enhancing frontend applications with emphasis on clean code practices, performance improvement, reusability, and alignment with modern development standards and accessibility guidelines. Possess strong backend fundamentals in **JAVA**, enabling solid end-to end system understanding and effective cross-functional collaboration. Additionally equipped with knowledge in **Generative AI and Prompt Engineering**, with a strong interest in leveraging AI-assisted development to enhance productivity, automation, and intelligent user experiences. Recognized for **Technical Excellence, Dedication & Responsive Support** on the Johnson & Johnson engagement, along with proactive leadership and mentorship. Passionate about building high-quality, scalable digital products within innovative, product-driven technology organizations

EDUCATION

Siksha ‘O’ Anusandhan University, Bhubaneswar

BACHELOR OF TECHNOLOGY - COMPUTER SCIENCE & ENGINEERING : **CGPA 9.63/10**

Odisha, India

2020 – 2024

EXPERIENCE

A.P. MOLLER - MAERSK

Java Intern

July 2023 – April 2024

Bengaluru, India

- Developed backend services using **JAVA** with strong fundamentals in **DSA**
- Built and enhanced **REST APIs** to support application features and system integration
- Updated and maintained **Gradle** build configurations for project dependencies and build processes
- Configured and modified **YAML** files for application settings and environment configurations
- Monitored application performance using **Grafana** dashboards and logs
- Performed debugging and root cause analysis to resolve backend issues
- Collaborated within **Agile** development teams to support feature development and issue resolution

TATA CONSULTANCY SERVICES | *R&D – Johnson & Johnson*

Systems Engineer

Jan 2025 – Present

Kolkata, India

- Developed scalable and reusable **React.js** components using **TypeScript** and ES6+
- Implemented responsive and **accessible UI** aligned with modern UX standards
- Designed and integrated **REST APIs** with structured error handling
- Led development of **Chat History** module and Cascading LOV components
- Implemented **internationalization (i18n)** for multi-language support
- Optimized application performance and refactored legacy modules for improved scalability
- Delivered **POCs** adopted by the team for platform improvements
- Debugged complex production issues through detailed **root-cause analysis**
- Conducted **Knowledge Transfer (KT)** sessions and provided cross-squad technical support
- Provided extended production support during critical release cycles, ensuring on-time deployment and system stability

TECHNICAL SKILLS

Languages: Java, SQL, Python, HTML, CSS, Bootstrap, Tailwind CSS, React.js, JavaScript, TypeScript

Technologies: Data Structures & Algorithms (DSA), Object - Oriented Programming (OOPS), Networking & Security , Generative AI, Prompt Engineering

Tools and Software: Git, GitHub, Bitbucket, Jira, Figma, Windchill, Visual Studio Code, IntelliJ IDEA, Postman, Cisco Packet Tracer

PROJECTS

Online Grocery Ordering System	2025
- Developed a full-stack web application with authentication, session management, and role-based access control. - Implemented key features including product management, cart, wishlist, and secure transactions. - Designed structured backend and database for efficient inventory and order management.	
IoT Based SMART Healthcare System	2024
- Designed an IoT-enabled ambulance monitoring system for real-time vehicle tracking and optimization. - Applied TSP-based route optimization algorithms to reduce response time and fuel consumption. - Built a smart framework for data-driven operational efficiency and resource utilization.	
Network Design and Implementation of a Small Company using Cisco Packet Tracer (CPT)	2023
- Designed and simulated a secure enterprise network using VLAN segmentation and subnetting. - Configured routers and switches for controlled inter-network communication. - Validated routing and connectivity to ensure secure and efficient data transmission	
Smart City Management System	2023
- Developed a web application implementing CRUD operations for healthcare service management. - Designed database schemas for efficient data storage and retrieval. - Ensured structured workflow with proper data validation mechanisms	
Personal Portfolio Website	2022
- Built a fully responsive portfolio website showcasing projects, skills, and certifications. - Designed clean UI with cross-device compatibility and smooth navigation.	

CERTIFICATIONS

- Generative AI & Prompt Engineering
- Java Skill Assessment
- Oracle SQL Certification
- Python Skill Assessment
- Introduction to Cybersecurity

ACHIEVEMENTS

- Received an **A Band** Performance Rating for Outstanding Contribution
- Awarded for **Technical Excellence, Dedication & Responsive Support**
- Appreciated by Regional HR for **Group Representation** and **Leadership** Contributions.
- Recognized with the **On the Spot Team Award** for **Teamwork & Consistent Performance**.
- Received **Learning Achievement Award** for Continuous Learning & Skill Excellence.
- **Platform Contribution & Knowledge Leadership**, Chat History, i18n KT & Platform Enhancements
- Earned **Gold Badge** in **Java** for Programming, Problem Solving & Data Structures (DSA).

TRAININGS & WORKSHOPS

- Participated in **AWS Innovate Online Conference** – Data & AI/ML
- Completed **Front-End & Back-End Web Development Bootcamp** conducted by Microsoft Student Ambassador
- Participated in **INNOVISION Technical Fest** conducted by National Institute of Technology (NIT)
